ABOUT US

Together we embrace the unique power of each person to transform the lives of patients & society. We are committed to a culture where everyone feels a sense of belonging and where we can thrive equally. We specialize in manufacturing and importing medical diagnostic laboratory equipment from a range of domestic and international suppliers. In addition, the holding focuses on distributing finished products to a wide range of customers in both local and global markets. Our managers, executives, and staff possess great potential and extensive experience. Our sales team has been active in the medical market of Iran and the Middle East, and they are fully aware of the situation and capabilities of their target markets.

OUR STRATEGY

Aria Taban Azma is a leading provider of advanced diagnostic and laboratory equipment, committed to delivering the highest quality solutions to healthcare professionals. With a focus on innovation, accuracy, and reliable customer support, by combining our domain expertise, deep understanding of industrial operations and capabilities, we drive realworld impact and help our customers become more competitive, more resilient, and more sustainable.

OUR MISSION

At Aria Taban Azma, our mission is to empower healthcare professionals and researchers with innovative, precise, and reliable diagnostic and laboratory solutions. We are committed to enhancing patient care, advancing medical science, and supporting a healthier society through cutting-edge technology, exceptional customer service, and sustainable practices.

We are deeply committed to combining advanced technology with personalized support, ensuring that every customer experiences trust, reliability, and long-term value. By embracing sustainability and continuous improvement, we aim to set new benchmarks for excellence in our industry.

MAJOR PRODUCTS:

- **Rapid Tests:**

We offer innovative single qualitative testing devices designed to perform multiple diagnostic tests from a single sample. These rapid tests enable the detection of various analytes simultaneously, delivering accurate results within 10 minutes. Ideal for point-of-care settings, our rapid tests help healthcare professionals make swift, informed decisions, enhancing patient care and operational efficiency.

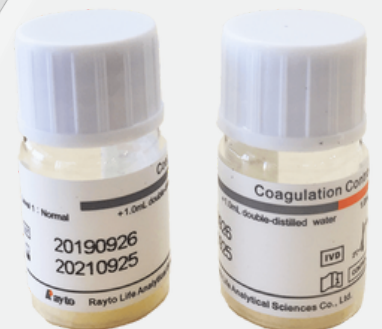

· FIA POCT analyzer and reagents:

Our state-of-the-art FIA system is a multi-parametric, random-access platform providing precise and reliable quantitative diagnostic results. Equipped with advanced internal quality controls, the system ensures consistent accuracy and reproducibility. Designed for point-of-care testing, this technology supports a wide range of clinical applications and enables seamless workflow integration in laboratories and healthcare facilities.

• Coagulation analyzer and reagents :

We are excited to introduce our upcoming line of coagulation diagnostic products. These systems and reagents will provide comprehensive solutions for monitoring and diagnosing coagulation disorders, supporting healthcare professionals in delivering targeted and effective patient care.
